

Program for Deaf Adults

Intensive Study in American Sign Language Program

Intensive Study in American Sign Language Program's three courses, including in-class and lab components, are offered jointly with the college's **Department of Education and Language Acquisition**. These courses are designed for you if you wish to make rapid progress in developing ASL skills and to expand your multicultural sign vocabulary, but do not wish to earn academic credit. You will have access to the state-of-the-art ASL Language Lab. All continuing education students are required to be assessed through an intensive screening (fee is \$50, which is non-refundable and must be paid in advance). See details below. Note: If you don't have a college degree or academic credits and wish to earn them for these courses, you must be admitted to the college for the fall or spring semester and are not required to be intensively screened. For more information, please contact Carole Lazorisak at Academic Department of Education and Language Acquisition in room E-200 or E-mail carolel@lagcc.cuny.edu

Intensive Screening

All continuing education students are required to be assessed through an intensive 30-minute screening prior to registering for any of Intensive Study in ASL Levels 2, 3, and 4 classes. Call Roxann Richards-Chattoo at (866) 553-3609 for an ASL screening appointment.

Intensive Study in American Sign Language- Level 4

This course builds on the vocabulary and grammar learned in ASL 1 through 3 (ELM101-ELM103). Language skills will be refined in the areas of complex non-manual grammatical markers, advanced ASL spatial rules, classifiers (particularly as used for descriptions of small items, people, cars, and places), and adverbial modifiers for small items and details. You will be able to use ASL in a variety of discourse styles, such as persuasion, negotiation, problem-solving, giving directions, and dialogue. Upon completion, your ability to communicate with Deaf persons will be enhanced.
