

PROGRAM FOR DEAF ADULTS
Division of Adult and Continuing Education
LaGuardia Community College

Is pleased to announce to offer three workshops taught in ASL this fall!

How to Make Your Own ASL Vlogs?

Have you ever wanted to post your own ASL Vlog on the Internet? Learn how to shoot, edit and post your very own Vlog. Learn what makes a good Vlog, the best way to prepare your script and shoot your video clips, how to edit it, and finally, how to post it on the Internet. Students are encouraged to create video clips using their webcams or digital video cameras.

First session: Saturday, 9/12/09, 1:00 - 3:00 pm (in a smart room)
Second session: Saturday, 9/26/09, 1:00 - 3:30 pm (in computer lab)
Tuition: \$79.00 (two sessions, 4.5 hours) A16ASL023

Introduction to Digital Moviemaking Taught in ASL

Want to digitalize or improve your home movies? Learn how to give your videos a more polished look. This course, using Windows Movie Maker or related application, will teach you the techniques you need to make your movies shine. You'll learn how to plan, capture, import, and edit your movies. Students should be able to communicate in ASL fluently.

First session: Saturday, 9/12/09, 9:30 - 11:30 am (in a smart room)
Second session: Saturday, 9/26/09, 9:30 am - 12:00 pm (in computer lab)
Tuition: \$79.00 (two sessions, 4.5 hours) A16ASL024

Introduction to Web 2.0 Taught in ASL

Learn about the new technologies, Twitter, RSS, Wikis, del.icio.us, social bookmarking, social networking and tagging, the Internet's new and effective ways of connecting through Web 2.0 technology. Become an active contributor, customizing internet technology for your own purpose, as well as your community. This course, taught in ASL, explains each of the technologies, how they are used as well, as the social, political and economic impact of each.

10/3/09, 9:30 am - 12:30 pm (in a smart room)
Tuition: \$49.00 (one session, 3 hours) A16ASL025

Teacher's Bio:
